Financial Information

Our office is continually striving for excellence in dentistry and in serving our patients. We are committed to using products and materials which are of the best quality, and yet still provide ways to make treatment comfortably affordable for our patients. We have recently added more methods of payment to facilitate this. Besides accepting cash or check, we also are able to process MasterCard, Visa and Discover. In addition, we are contracted to work with Care Credit in which monthly payment plans are involved and many times are interest-free to our patients.

Our office does file insurance. However, we are **not** contracted with any insurance company and therefore require **deductibles and copayments to be paid at the time of service**. We will estimate your portion and collect that today. Any remaining balance will be billed to you after the insurance has paid their portion. If the insurance should pay more than expected, you will receive a refund immediately.

Please remember, you and/or your employer have chosen your insurance company. The contract is between you, the insured and that company. You are responsible for any balance on your account. We cannot guarantee payment. We can only assist in filing claims. After 60 days, if your insurance has not paid, we will ask you to pay your balance and then assist you in following up with claim information.

Method of Payment

_____ Cash _____ Check _____ MasterCard _____ VISA

_____ DISCOVER _____ I would like to apply for Care Credit
